

NYSE And Palo Alto Networks Introduce New Book For Boards Of Directors Looking To Address Today's Cybersecurity Challenges

October 12, 2015

Navigating the Digital Age: The Definitive Cybersecurity Guide for Directors and Officers Provides Actionable Advice and Best Practices

SANTA CLARA, Calif. and NEW YORK, Oct. 12, 2015 /PRNewswire/ -- Palo Alto Networks® (NYSE: PANW), the next-generation security company, and the New York Stock Exchange (NYSE), a wholly-owned subsidiary of Intercontinental Exchange (NYSE: ICE), today announced the publication of a new book, "Navigating the Digital Age: The Definitive Cybersecurity Guide for Directors and Officers" to provide boards, executives and officers at enterprises, government agencies and other organizations with practical, expert advice on how to best protect them from cyberattacks.

Collecting the expertise and experience of CEOs, CISOs, lawyers, forensic experts, consultants, academia, and current and former government officials, this anthology is intended for those new to the cybersecurity topic, as well as seasoned leaders in the field. It contains practical and expert advice on a range of cybersecurity issues, including compliance and breach avoidance, prevention and response.

QUOTES

- "No issue today has created more concern within corporate C-suites and boardrooms than cybersecurity. We believe that exemplary corporate governance is fundamental to the health of individual companies, as well our capital markets, which is why NYSE Governance Services is dedicated to offering solutions in compliance, governance and risk management."
- Tom Farley, president, New York Stock Exchange
- "We live in the digital age and cybersecurity attacks are eroding the trust that is so important for it to work. As a result, our lifestyle and productivity that we take for granted is increasingly at risk. Thoughtful government and business leaders recognize the importance of this issue, not only for their organizations, but society as well, and are keen to have a better understanding of the issues and solutions. We believe that education is a key element of the path forward and are proud to have partnered with the NYSE to produce this book, which will help leaders understand the landscape, ask the right questions, assist in fulfilling their fiduciary duties, and challenge status quo thinking about today's cyberthreat landscape."
- Mark McLaughlin, chairman, president and CEO, Palo Alto Networks

There are more than 35 contributors to the book, including:

- Michael Chertoff, former secretary of Homeland Security
- Adam Sodowick, president, [NYSE Governance Services](#)
- Charlie Scharf, CEO of VISA
- Mark McLaughlin, CEO of Palo Alto Networks

Additional organizations that provided insights for the book include the World Economic Forum (WEF), the U.S. Department of Justice (DoJ), the Georgia Institute of Technology, Wells Fargo, Booz Allen Hamilton and Baker & McKenzie.

All NYSE listed company board members will receive a copy of "Navigating the Digital Age: The Definitive Cybersecurity Guide for Directors and Officers."
